EDUCATION

University of Michigan

Expected May 2027

B.S.E. Industrial and Operations Engineering, Minor in Computer Science

GPA: 3.75

- **Activities:** URB Consulting Co-Founder (established pro-bono consulting for startups, managed 50+ analysts), IE Research Assistant (optimizing AR tech), Michigan Mock Trial, Indian Student Association Community Service Chair

PROFESSIONAL EXPERIENCE

Enterprise Solutions Architect Intern

New York, NY

Adobe

June 2026- August 2026

- Validated technical fit of Adobe Experience Platform products with technical stakeholders across 2 enterprise accounts totaling \$1M+ ARR by diagnosing schema migration issues, supporting federated data ingestion from third party CRMs, and roadmapping phased product integration architecture supporting \$3M in potential contract renewals.
- Supported development and B2B go-to-market strategy of new Real-Time CDP AI capabilities by translating complex engineering specifications into customer-facing decks, data flows, architecture diagrams, and technical enablement sessions impacting 15+ strategic accounts and 200+ architects across Adobe's Technical Pre-Sales organization.
- Built a GraphRAG-powered internal AI knowledge tool from 0→1, ingesting tribal knowledge, engineering wikis, and public documentation via automated site crawling; engineered proprietary PageRank-based link retrieval across 30K+ indexed pages to surface interconnected technical knowledge and accelerate retrieval for new team members.
- Co-founded a new data privacy product for Adobe's internal startup incubator (600+ submissions), working with engineers and designers to develop an MVP, building the GTM strategy, and facilitating handoff for further validation.

Co-Founder and CEO

Ann Arbor, MI

Pachira (Digital Gift Card Platform Startup)

May 2025 - May 2026

- Founded and scaled a gift card fintech startup from ideation to pilot readiness, securing 15+ restaurant partners through door-to-door conversations, building a 1000+ user beta waitlist, and managing a banking implementation partnership to sponsor Pachira card issuance; won \$20K+ in national startup pitch competitions as lead company presenter.
- Developed consumer-facing product from UX design through engineering in React and Node.js; architected a webhook POS reconciliation system probabilistically matching transaction data against customer balances stored in MongoDB.
- Led product discovery, iteration and go-to-market strategy through 100+ customer interviews and 700K+ online impressions, while growing the team to 3 and being accepted into the Ross School of Business startup incubator.

Supply Chain Product Management Intern

Milwaukee, WI

GE HealthCare

May 2025 - August 2025

- Analyzed 6M+ rows of item level tariff data from AWS and Oracle in Power BI to produce performance dashboards for EY consultants, supporting 25 OKRs and identifying real time data trends, allowing for a 15% cycle time improvement.
- Worked cross-functionally with procurement and engineering teams to maintain Oracle GTM tool, supporting 1500+ daily shipments, generating reports for 650+ key stakeholders, informing decisions for over \$150 million of inventory.

Sales Data Analytics Intern

San Diego, CA

Qualcomm

May 2024 - Aug 2024

- Drove \$30,000+ product sales of Microsoft Copilot+PCs powered by Qualcomm Snapdragon in San Diego big-box retail stores, exceeding sales target by 15% and reducing product return rate by 10%, topping nationwide sales leaderboards.
- Tracked 30+ KPIs among competitors and developed tailored training sessions for retail employees, equipping them with product specifications, storytelling and customer engagement strategies that increased sales conversions by 20%.

ADDITIONAL

- **Technical Skills:** Python, SQL, JavaScript, React, C++, Java, R, HTML/CSS, AWS Redshift, Azure Cloud
- **Analytics Skills:** Excel (PivotTables, VBA, Macros), Power BI, Salesforce, Oracle Cloud, IBM Watson AI
- **Product Skills:** Jira, Agile, Figma, Customer Interviews, Roadmapping, Prompt Engineering, Data Storytelling
- **Awards:** Dean's List, 1st Place San Diego Coder Fair, 1st Place San Diego Engineering Fair, 4x HS Debate Nationals
- **Publications:** 30+ publications across: Scholastic, local news media, World Sciences Foreign Policy Journal
- **Interests:** Racquetball, Jeopardy, Formula 1, Watches, Card Games, Stand-up Comedy, Chess, Entrepreneurship
